

ADDITIONAL SERVICES

WEB

Be found online where your customers are searching. Your website is an essential part of a digital presence. It tells customers who you are, what services you provide, and why they should do business with you.

MARKETING

Reach more customers with custom marketing plans that fit your goals. Whether you plan to launch a new location, increase leads, or improve search results, we have proven strategies to accomplish your objectives.

DESIGN

Connect with customers using printed and digital materials that answer customer questions and reflect your brand identity. Well-designed brochures, business cards, and case studies help you stand out.

ELIMINATE ISSUES, IMPLEMENT SOLUTIONS

You need a technology partner to eliminate issues and implement solutions so your business functions at its fullest potential.

We'll help to:

- Build an efficient infrastructure
- Reduce security threats
- Protect your data
- Connect multiple locations
- Install and maintain hardware and software

STRATEGY

WEB | MARKETING | DESIGN | TECH

NETWORKING & WIRELESS

Whether you're migrating to the cloud or have a traditional network, we'll make sure data is secure and the network is optimized for maximum efficiency. We install internal wireless networks that are secure and easy to use.

CLOUD COMPUTING

Leverage the power and affordability of the cloud. Reduce infrastructure costs by moving unnecessary hardware systems to new cloud systems. Leverage the accessibility and security of the cloud for offsite backup and data storage.

INTERNET

Keep your business running at optimum speed with the best internet systems available. Strategy will save you time and money by aligning your business goals with secure and efficient internet coverage.

CONSULTING

Technology is complex and ever-changing; if you don't have I.T. staff or a CIO, Strategy can provide the same consulting and strategic direction to leverage technology to grow your business. Let us be your virtual CIO.

PHONE SYSTEMS

We help improve efficiency of phone systems and reduce expenses. Hosted voice over IP phone systems are easy to manage and provide flexibility for remote workers and multiple offices.

SECURITY

Protect your business and data from hackers, viruses, and human error. We can do a full security assessment of networks and firewalls or help set up a Virtual Private Network so employees can work safely from home.

SIMPLIFY TECHNOLOGY

From I.T. consulting to planning, Strategy simplifies technology to save time and money. Whether you have one location or a dozen, we'll manage your network.

HELP DESK SUPPORT

Implement a solution that takes the headache out of technology. We supply on-site and remote tech support services to resolve issues.

INCREASE EFFICIENCY

Strategy eliminates technology issues and implements systems that improve productivity. We can create a customized and proactive plan that optimizes business delivery.

31%

of organizations who experience security incidents experienced a downtime of more than 8 hours.

TECHNOLOGY MADE EASY

Strategy is a Microsoft, Google, Dell, and Datto partner. Our knowledgeable technicians support traditional and cloud-based systems including Windows based networks, Apple devices and operating systems, Google Apps, and other cloud services. Whether you need managed services, onsite or remote help desk support, systems integrations, or strategic technology consulting, we're here to help your business succeed!
